

CAREER CRUISING

careercruising.com

Career Cruising is an online comprehensive and interactive career guidance resource that provides the information students need to make the right career choice. It is used by post-secondary education institutions and in grades 7-12 as a means of identifying interests and careers. It includes . . .

- in-depth profiles of hundreds of different careers
- detailed information on colleges and universities
- and . . . multimedia interviews with real people in every career. What better way to learn about careers than from the people who know them best?

Logging into Career Cruising is simple; contact your child's counselor or ask your child for the Username and Password so you can access the web site. You can then begin to cruise careers. New career options emerge; after all, people make career changes on average of 9-11 time during their working lifetime.

You can also view your child's Education Development Plan (EDP) at the Career Cruising web site (see "Education Development Plan" link for detailed description of an EDP). Your child can provide you with the Username and Password to the EDP.
